

01 BALOCHISTAN PROVINCIAL CONSULTATIVE WORKSHOP ON URAAN PAKISTAN

02 FROM DESPAIR TO DIGNITY – A JOURNEY OF RESILIENCE.

The first image tells a story of loss—makeshift shelters, exposed to the harshest weather, where families waited in uncertainty, holding onto hope with nothing but courage.

The second image... tells a new story. Of home. Of safety. Of life - starting again.

Under the Housing Reconstruction Unit (IFRAP) Balochistan, part of the IFRAP - Integrated Flood Resilience and Adaptation Project - Post Flood 2022 initiative by the Ministry of Planning Development and Special Initiatives, and implemented by Islamic Relief Pakistan, families that once lived under plastic sheets and wooden poles now walk into homes that are safe, permanent, and resilient.

For these communities, this isn't just housing—it's healing. It's the return of privacy, protection, and pride. A space to dream again, to rest peacefully, to rebuild lives that were once shattered by floods.

This transformation is a reminder of what is possible when commitment, compassion, and coordination come together for those who need it most.

VILLAGE JHAT PAT, LOT#08 –
USTA MUHAMMAD ROAD,
JAFFARABAD, BALOCHISTAN
(BEFORE & AFTER).

03 IFRAP TEAM ATTENDS THE WORLD BANK'S 2ND ENVIRONMENTAL AND SOCIAL FRAMEWORK (ESF) FORUM

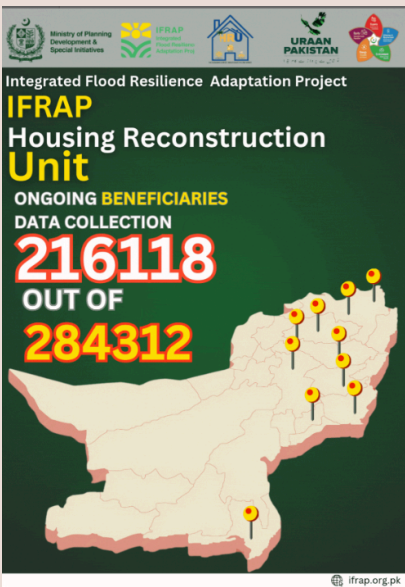

From April 21–23, 2025, representatives from the IFRAP team attended the World Bank’s 2nd Environmental and Social Framework (ESF) Forum at the Movenpick Hotel, Islamabad. The event brought together development professionals from around the world to share experiences and practical tools for integrating environmental and social safeguards into project planning. The team gained valuable insights on managing risks, engaging communities, promoting inclusion and gender equity, and building climate resilience. These learnings will help inform more inclusive, accountable, and sustainable practices across future development initiatives.

04 SIGNIFICANT STRIDES IN BENEFICIARY OUTREACH AND DATA COLLECTION.

As of now, 216,118 beneficiaries have been successfully covered under the ongoing data collection drive — out of a total target of 284,312.

This reflects a remarkable 76% completion rate, demonstrating strong field mobilization and commitment to inclusive recovery.

Let's Celebrate

The rich heritage of Balochistan and honor its timeless beauty

A land where the past meets the present

From ancient ruins of Mehrgarh to the vibrant Balochi Embroidery, every thread of this region's culture is woven with pride and history
