✱ INTEGRATED FLOOD RESILIENCE AND ADAPTATION PROJECT ✱

COMMUNICATIONS UNIT FEDERAL PROJECT MANAGEMENT UNIT

Prime Minister of Pakistan Mian Muhammad Shahbaz Sharif inaugurates reconstructed housing units and distributes subsidy grants to the beneficiaries of Balochistan.

Under PM Shehbaz Sharif's vision and Federal Minister for Planning, Development & Special Initiatives Prof. Ahsan Iqbal's leadership, with the support of Government of Balochistan, a monumental project in 33 districts of Balochistan has been launched.

Through the Housing Reconstruction Unit (IFRAP), over **284,000** flood-affected families are getting homes for free: roofs, protection, and hope!

- **42,547** houses under construction
- **15,000+** already completed
- Phase 1: **97,000** homes with Rs **46** billion allocated
- Rs 400,000 per home in installments, + Rs **50,000** extra for special persons
- Priority for women, elderly, and vulnerable

The houses are built disaster-resilient under local community oversight with full transparency.

Ministry of Planning, Development & Special Initiatives

42,547 Homes under construction | **15,000** Homes completed

Partnering for a Safer Balochistan, Stronger Pakistan!

TOGETHER, WE RISE!

Prime Minister Shehbaz Sharif is committed to rebuilding Balochistan after the floods. With the Integrated Flood Resilience and Adaptation Project, we are reconstructing **98,000** homes.

📍 Karachi | IFRAP Mid-Year Progress Review (29–30 January 2026)

The Federal Project Management Unit IFRAP successfully organized the Mid-Year Progress Review Meeting which brought together key stakeholders to review progress, address challenges, and align collective efforts towards strengthening flood resilience and climate adaptation across Pakistan.

From Recovery to Resilience – Building Back Better, Together

Implemented under the leadership of the Ministry of Planning Development and Special Initiatives, with support from The World Bank, and in collaboration with implementing partners and stakeholders, IFRAP continues to advance coordinated, resilient recovery efforts.

Project Director IFRAP visits Reconstructed Houses 📍 Lasbela, Balochistan

A defining moment of unity, Balochistan's communities and the Federal government Ministry of Planning Development and Special Initiatives coming together where it matters most: on the ground. Mr. Asad Ullah Nasar (Project Director, IFRAP) visited the newly constructed homes for flood-affected families. Seeing him among the community brought a genuine sense of hope and happiness.

During the visit, the Project Director sat with residents and asked the questions that matter regarding their needs, challenges and satisfaction over the work delivered.

The response from the community- men, women, children, and local elders was deeply encouraging. Families expressed gratitude, happiness, and satisfaction, sharing how much it means to rebuild life with dignity after losing so much.

For all of us involved, it was a moment of pride and light to see the work started under IFRAP Housing Reconstruction Unit (IFRAP) Balochistan gaining strong momentum turning commitment into impact, and plans into roofs over heads.
